

How High?

How high each strain gets you is, as the flavor text hints, a matter of looking at the symbols in the word. How many letters are "high" - that is, have an ascender? All the strains are written in lowercase, as a clue that you should do the same when

checking for ascenders.

chronic	2
venus	0
dutch treat northern lights	11
new purple power	1
super skunk	2
danky doodle	5

Using the clues, identify each strain, figure out how high it gets you, then index into its name.
