

NOT ENTIRELY ALIKE - SOLUTION

Upon trying to find the given words in the grid, it should become clear that they're not there. However, some words should stand out: BLACK, CLEAN and THROWN are all written in normal reading order in the grid.

Noticing that the words WHITE, DIRTY and CATCH are in the list, this should lead to the revelation that the OPPOSITES are in the grid.

When all the opposites are found, the remaining letters spell RARELY HARMFUL. The opposite of this is then MOSTLY HARMLESS, the title of one of the books in Douglas Adams' Hitchhikers Guide series.

The opposites are listed below for completeness.
